WEIGHT SUPPORT

Clinically researched benefits include:

- Provides antioxidant support
- Promotes joint comfort and mobility
- Improves range of motion
- Helps manage oxidative stress
- Keeps inflammation within a healthy range
- Helps maintain cell integrity, which promotes healthy aging
- Rich in soluble fiber, which supports healthy blood glucose and cholesterol levels
- Supports a healthy digestive system and helps soothe stomach irritation

Participants on DAPP experienced a statistically significant reduction in joint pain after 4 weeks, and highly significant results after 12 weeks.

Charted score is the mean Visual Analogue Scale (VAS) value of all subjects.
