Since its foundation in 1895 by Charles Dondain, Nexira has dedicated itself to one goal: to provide the best innovative natural ingredients to the food, health and nutrition industries.

The company built its reputation as the global leader in acacia gum, and has over the years extended its expertise to encompass a diverse portfolio of ingredients derived from natural sources.

Our portfolio includes high quality plant extracts, antioxidants, dietary soluble fibers, and active botanicals for general health and wellness.

Nexira offers a global expertise ranging from raw material sourcing and proprietary processing technologies to formulation support. With 5 manufacturing plants in France, Nexira provides an extensive extraction, spray- drying and purifying capacity with high quality certifications.

Nexira's enduring success is built upon both a history of deep commitment to sustainable values and on strong bonds with suppliers and customers alike.
